SUMMARY

Results-driven and versatile professional with a solid foundation in web development and proficiency in both front-end and back-end technologies. Leveraging hands-on experience gained through internships in web development, I possess expertise in HTML, CSS, JavaScript, and frameworks like React and Node.js. Additionally, my background in programming languages such as C, C++, and Python equips me with strong problem-solving skills and a meticulous approach to code optimization. Committed to delivering high-quality solutions, I am adept at collaborating within multidisciplinary teams to drive project success and exceed client expectations.

EXPERIENCE

Web Developer intern

Cognifront Pvt Ltd

December 2023 - January 2024, Nashik, Maharashtra

- At Cognifront, I spearheaded the creation of "Music Masti," a dynamic e-commerce site dedicated to music enthusiasts. This platform offers a seamless shopping experience for music instruments, and accessories. Utilizing cutting-edge technologies, I developed a user-friendly interface and robust backend to ensure smooth transactions and customer satisfaction. Dive into the world of "Music Masti" to explore the harmony of music and technology.

PROJECTS

Portfolio

github.com/AtharvDhatrak/portfolio2.git • May 2024 - May 2024

- A curated showcase of my work, blending creativity and technical prowess. Explore a diverse range of projects, from web development and graphic design to data analysis and programming. Each piece highlights my skills, growth, and passion for turning ideas into impactful realities, demonstrating my commitment to excellence and innovation.

Turf Booking App

github.com/AtharvDhatrak/turfbooking.git • March 2024 - May 2024

- The Turf Booking App is a comprehensive platform designed to streamline the process of booking sports facilities such as football fields, tennis courts, and basketball courts. It offers users the convenience of finding, reserving, and paying for turf slots effortlessly.

E-commerce UI using Figma

• January 2024 - May 2024

- A sophisticated platform tailored for sneaker enthusiasts and collectors. Dive into a world of exclusive releases, limited editions, and iconic classics, all seamlessly showcased and accessible at your fingertips.

weather App front-end

github.com/AtharvDhatrak/frontendprojects.git • December 2023 - May 2024

- Seamlessly blending design and functionality, our app offers real-time weather updates with a user-friendly interface. Users can effortlessly check current weather conditions, hourly forecasts, and extended outlooks for any location worldwide. With intuitive navigation and responsive design, accessing weather information on various devices becomes effortless. Personalization features allow users to save favorite locations and tailor their weather experience. Leveraging modern web technologies like HTML, CSS, and JavaScript, our app delivers accurate and visually appealing weather data, empowering users to plan their day with confidence. Join us in exploring the intersection of design and utility, as we bring weather forecasts to life in an engaging and accessible way.

Online Teaching Platform

Techathon Pune • github.com/AtharvDhatrak/techathon-backend.git • September 2023 - May 2024

- Introducing our cutting-edge Online Learning Platform: Offering a diverse array of courses across disciplines, coupled with AI assistance for personalized learning journeys. Seamlessly blending innovation and education, our platform empowers learners of all levels to achieve their goals with ease. Harnessing the power of artificial intelligence, we deliver tailored recommendations, feedback, and support to each student, maximizing their potential. Whether mastering a new skill or delving into a passion, our platform provides the tools and guidance needed for success. Join us in revolutionizing the way we learn, as we pave the path towards a brighter, more accessible future of education.

CERTIFICATIONS

Introduction to Front-end development

Simplilearn • 2024

- It provided a deep insight into HTML ,CSS ,Javascript together with Angular and React frameworks and libraries

UI/UX For beginners

Great Learning • 2024

- It provided a deep insight into concepts of building an effective user interface and user experience

React JS for beginners

Simplilearn • 2024

- An intensive online course on the Basics of React JS, gaining proficiency in fundamental concepts and practical applications of React JS development. Acquired skills in creating interactive user interfaces, managing state effectively, and integrating external APIs for dynamic data fetching. Successfully completed assessments and practical projects, demonstrating competence in React JS fundamentals.

MongoDB Tutorial

Great Learning • 2024

- A comprehensive online certificate course in MongoDB, mastering essential concepts and practical applications of MongoDB database management. Developed proficiency in data modeling, querying, indexing, and aggregation techniques using MongoDB. Acquired hands-on experience in building scalable and efficient database solutions for web applications. Successfully completed assessments and practical exercises, demonstrating competency in MongoDB fundamentals.

Introduction to MERN stack

Simplilearn • 2023

- It Paved my way into cutting edge web development technologies trending in todays development market. Technologies like MongoDB, Express JS , React JS , Node JS together with HTML , CSS and Javascript were major area of focus.

COURSEWORK

Computer Science and Design

Karmveer Kakasaheb Wagh Insitute of Engineering Education and Reasearch (KKWIEER) • 2021

- Programming(C , C++ , Python,java) , Web development , UI/UX design , AI, Buisness Intelligence,Computer graphics ,Data Structures
- Through Hight end Techathons and competitions for displaying miniprojects

SKILLS

Front-end:HTML5,CSS, Javascript, Bootstrap, React, Bootstrap

Backend:Javascript, Node JS, PHP, MongoDB

UI/UX Design: Figma,Canva

Version control :Git,Github
